##### Revision d94f4d36 - 12/22/2015 10:01 AM - Shimon Shtein

Fixes #12794 - Defined logic when properties should be sent to server

If hostgroup is not set - always send the parameters.

On hostgroup change - remove inherited parameters from the request, so the values from the hostgroup will take place.

On save - send the values according to the state of the "inherit" button.
