

Foreman - Bug #1283

Stray comma in highcharts code breaks IE

11/01/2011 09:20 AM - Jacob McCann

Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>Our corporate standard browser is IE6 (ick). I've tested foreman in IE6 and IE7 and the charts do not work. I checked the highcharts site and it states that IE6 and IE7 are compatible browsers.</p> <p>I found a stray comma that was breaking the js in IE.</p> <p>For foreman 0.3 in file app/helpers/statistics_helper.rb:</p> <pre>credits: { enabled: false, },</pre> <p>Is modified by removing the comma after 'false' (and I added some whitespace, but that isn't needed):</p> <pre>credits: { enabled: false },</pre> <p>I was going to try and edit and patch this myself to submit, but then noticed foreman 0.4 changes this quite a bit. I'll keep looking to see if I can patch 0.4, but someone more familiar might be able to do this in 30 seconds. :P Or maybe its not even broke in 0.4?</p>	

History

#1 - 11/01/2011 09:22 AM - Ohad Levy

- Category set to Web Interface
- Assignee set to Amos Benari
- Target version set to 0.4

#2 - 11/01/2011 09:32 AM - Jacob McCann

Similar updates needed in the following (for 0.3):

app/helpers/dashboard_helper.rb (for methods render_overview and render_run_distribution)
app/helpers/hosts_helper.rb (render_report_status_chart, render_runtime_chart)

Not sure how helpful this is since its changed in 0.4, but I'll keep updating if I find/fix more on my deployment. :)

#3 - 11/01/2011 09:55 AM - Amos Benari

- Status changed from New to Closed
- % Done changed from 0 to 100

was fixed as part of the none obtrusive javascript patch that is already applied.
