

## Foreman - Bug #12837

### Security Groups not populated after selecting Subnet in New Host > Virtual Machine

12/15/2015 02:32 PM - Jordan Snodgrass

<b>Status:</b> Duplicate	
<b>Priority:</b> High	
<b>Assignee:</b>	
<b>Category:</b> Compute resources - EC2	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b> 1.10.0
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
In New Host > Virtual Machine, the list of Security Groups is not populated after selecting a subnet. I see the following in my console when selecting a subnet:	
<pre>Uncaught TypeError: Cannot read property 'subnet-31727477' of null</pre>	
This is in 1.10.0-RC3. It works fine on our 1.8.4 version of Foreman, so pretty sure it's not a config or IAM issue.	
I am unable to provision new EC2 instances due to this bug.
