Pull request:	
Description A few of our SCL packages still have requires on /usr/bin/ruby. This is probably the result of auto-requires and some example scripts or similar that reference /usr/bin/ruby instead of /usr/bin/env ruby. tfm-rubygem-gettext-doc-0:3.1.4-3.el7.noarch tfm-rubygem-net-ssh-0:2.9.2-1.el7.noarch tfm-rubygem-passenger-devel-0:4.0.18-9.9.el7.centos.x86_64 tfm-rubygem-pg-doc-0:0.15.1-1.el7.centos.noarch tfm-rubygem-ruby2ruby-0:2.1.3-2.el7.noarch tfm-rubygem-ruby_parser-0:3.6.3-2.el7.noarch
