This might be the root error message you're reporting, but it's hard to say if it's fixed without more context. Can you provide a full stack trace, probably from production.log?

- ActionController::RoutingError
No route matches {:action=>"toggle_manage", :controller=>"hosts", :id=>#<Host::Managed id: 56, name: "", last_compile: "2015-12-23 19:14:57", last_freshcheck: nil, last_report: "2015-12-23 19:14:53", updated_at: "2015-12-23 19:16:01", source_file_id: nil, created_at: "2013-08-19 18:23:44", root_pass: "-"}, serial: nil, puppet_status: 18253611008, architecture_id: 1, operatingsystem_id: 3, environment_id: 1, ptable_id: 1, medium_id: 6, build: false, comment: "", disk: "", installed_at: "2013-08-20 22:01:24", model_id: 7, hostgroup_id: 16, owner_id: 2, owner_type: "User", enabled: true, puppet_ca_proxy_id: 1, managed: true, use_image: nil, image_file: nil, uuid: nil, compute_resource_id: nil, puppet_proxy_id: 1, certname: "data2.:corp", image_id: nil, organization_id: nil, location_id: nil, type: "Host::Managed", compute_profile_id: nil, otp: nil, realm_id: nil, provision_method: "build", grub_pass: "-"}, discovery_rule_id: nil}>

This is odd, but perhaps a result of the earlier message, hard to say.

#7 - 01/19/2016 11:32 AM - Matheus Gomes

Deactivate host, Delete host from Foreman, run puppet on host, edit host all works fine, once i manage host on Foreman it allows to save once, after that back to errors when edit-save with no changes.

Deactivate host, Delete host from Foreman, re-add host manually, edit save edit save works.

#8 - 01/11/2017 11:11 AM - Tomer Brisker

- Related to Bug #9531: Removing host name from Host#edit throws routing error added

#9 - 01/12/2017 05:20 AM - Tomer Brisker

- Status changed from New to Resolved

I believe the fix for [#9531](#) should resolve this one as well, or at least allow seeing the failing validation message.

Closing this issue as resolved, feel free to reopen if this is still occurring after the related fix has been applied.
