

Foreman - Bug #1296

Parsing puppet classes fails in certain cases

11/04/2011 03:14 PM - Tray Torrance

Status: Duplicate	
Priority: Normal	
Assignee: Tray Torrance	
Category: Puppet integration	
Target version: 0.4	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description I use many parameterized classes, but tend to set default values so that the classes can be used in a non-parameterized fashion. For one class (puppet::configure), I utilized line-wrapping to spread the parameters over multiple lines, and enhance readability. This causes foreman to no longer parse that class as valid. Example class is attached.
