Description	
<p>#4629 partially undid the fix in #12977, by moving the sprockets-rails dependency out of the Gemfile and into assets.rb. sprockets-rails is a runtime dependency and so should stay in Gemfile. #12977 was a runtime error in production.</p> <p>The sprockets gem is also a runtime dependency, so should be in Gemfile rather than assets.rb.</p>

Fixes #13074 - sprockets-rails should be in Gemfile

dependency out of the Gemfile and into assets.rb. sprockets-rails is a runtime dependency and so should stay in Gemfile. #12977 was a runtime error in production.

The sprockets gem is also a runtime dependency, so should be in Gemfile rather than assets.rb.
