

Foreman - Bug #13082

Windows images unavailable when creating GCE image entries

01/08/2016 07:35 AM - Andrew Montgomery-Hurrell

Status:	Resolved		
Priority:	Normal		
Assignee:	Kavita Gaikwad		
Category:	Compute resources - GCE		
Target version:			
Difficulty:			
Triaged:	No		
Bugzilla link:			
Pull request:		Fixed in Releases:	
		Found in Releases:	1.10.0
		Red Hat JIRA:	
Description			
Currently using the foreman packages for debian as per the documentation, when trying to create image entries for GCE compute resources, you can't see any windows images.			
This is because the fog-google gem is vendored to version 0.1.0 or lower, but the windows-cloud image project wasn't added to the fog-google gem until after this release.

- Category set to Compute resources - GCE

The fog-google project now requires Ruby 2.0.0 and since we still support 1.9, it was pinned in the linked ticket until we decide to drop support for 1.9.3.
