<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/3050">https://github.com/foreman/foreman/pull/3050</a>	
<b>Description</b>	
The plugin initialization deprecation message added in <a href="#">#4629</a> is missing the name of the plugin affected, as the "called from" information doesn't indicate the source.	
Initializing plugins using <code>:after =&gt; :finish_hook</code> in your engine is deprecated. It delays the load of some assets in Sprockets. If you are the plugin author, please change your plugin engine initializer to <code>use:before =&gt; :finisher_hook</code> or <code>after_initialize</code> . (called from ...)
