<b>Description</b> Patternfly comes with icons for success failure and warning, we should use them across the app - e.g.: <ul style="list-style-type: none"><li>- host list</li><li>- about page</li><li>- smart proxies</li><li>...</li></ul>

fixes #13124 - use patternfly icons for status

this changes the following to use patternfly status icons(<https://www.patternfly.org/styles/icons/>)

- hosts list
- about page
- smart proxy index

Additionally, I've updated the default spinner to be xs class, this is in order for the spinner take the same size as the status icons.
