<b>Description</b>	
<p>I am new with foreman ( used less than 12 hours ), so it is very likely that i have some setup problem. I just spend 6 hours debugging why foreman is not able to import puppets btsync (mcanvet/btsync) module. The modules was listed with puppet module list, so i think its fully foreman's problem.</p> <p>The real problem was that btsync's init.pp file's comment ( ### ) contains unicode characters in developers personal name. Removing those characters i was able to get to foreman to import the class.</p> <p>My OS is running with UTF-8 locale, the file command shows that file is utf-8 encoded and foreman's config has utf-8 definition.</p>

#### Associated revisions

##### Revision 0a70eea0 - 01/21/2016 09:51 AM - Dmitri Dolguikh

Fixes #13219: force utf-8 external encoding on puppet classes

#### History

##### #1 - 01/14/2016 08:50 AM - Arto Pastinen

My OS is ubuntu ( lxc container ) 14.04, and foreman 1.10 stable guess..

##### #2 - 01/14/2016 08:59 AM - Dominic Cleal

- Project changed from Foreman to Smart Proxy
- Category set to Puppet
- Priority changed from High to Normal

Likely to be something with Unicode handling on the smart proxy side, and probably very dependent on the version of Ruby the service is running under.

##### #3 - 01/15/2016 09:43 AM - The Foreman Bot

- Status changed from New to Ready For Testing
- Assignee set to Anonymous
- Pull request <https://github.com/theforeman/smart-proxy/pull/360> added

##### #4 - 01/15/2016 09:44 AM - Anonymous

Arto: please give <https://github.com/theforeman/smart-proxy/pull/360> a try, should resolve the issue you were seeing.

##### #5 - 01/21/2016 09:51 AM - Dominic Cleal

- translation missing: en.field\_release set to 123

**#6 - 01/21/2016 10:02 AM - Anonymous**

- Status changed from *Ready For Testing* to *Closed*

- % Done changed from 0 to 100

Applied in changeset [0a70eea0979b981c1ae46cbcdf49def285c72a7](#).
