

Foreman - Bug #13247

Template fullscreen not resizing text area

01/15/2016 01:47 PM - Michael Deffenbaugh

Status: Closed	
Priority: Normal	
Assignee: Tom Caspy	
Category: Templates	
Target version: 1.10.2	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/3106	
Description	
Full screen button in template editor window works, but text field does not resize (same number of lines displayed as when it is the smaller window).	
Workaround - Once full screened, click between "Diff" and "Preview", then back to "Input". This causes the window (and subsequently the text field to redraw itself. This fixes the issue until the page is reloaded (even when switching between fullscreen and regular multiple times).
