Foreman - Bug #13269

HTML validation errors on the new Smart Proxy detail page

01/19/2016 03:41 AM - Lukas Zapletal

Pull request:			

Description

There are validation errors on the show page, most importantly:

- Missing one opening Div element (something is closed twice)
- Div elements inside Span elements (mostly spinners)
- Spinners have no class and/or id, so it's rendered as <div id='' class='spinner spinner-xs '>

I believe this was fixed with https://github.com/theforeman/foreman/pull/3125 (as well as other related PRs).
@Lukas Zapletal, can you please confirm?
