Description	
Opening this issue again (#13065), as there are two instances evident by grepping the codebase that weren't fixed: <ul style="list-style-type: none">• domains/welcome• hosts/welcome	
#4629 rewrote some help page text to include the sentence: Learn more about this on the documentation It should read "in the documentation". It is also incorrectly split into two sentence fragments, translated separately instead of a single sentence. This will result in bad translations. »Learn more about this« »on the documentation«
