Description

Hi,

On the hosts page.

https://foreman.example.org/hosts

would it be possible allow the customization of which columns are shown. For instance we like to add the host owner
and description to this view.

Many Thanks.

Steve.

+1, I also want this feature.
I would like to add a custom fact to the hosts list. And perhaps a "limited"(say the 1st line and 20 first chars of the comment box) comment box..
