

Katello - Refactor #13469

Repository model should know whether or not it can accept uploaded content

01/29/2016 10:53 AM - Adam Price

<b>Description</b> <a href="#">Issue #13453</a> needed us to remove the ability for docker content to be uploaded into a repository.  It was addressed with <a href="#">this pull-request</a> .  It would probably be better to encapsulate the logic around whether a repository accepts content uploads.  Something along the lines of:  <code>@repository.accepts_content_upload? # =&gt; true or false</code>		

History

#1 - 02/14/2016 10:49 AM - Eric Helms

- Category set to Container
- translation missing: en.field\_release set to 86

#2 - 02/16/2016 08:55 PM - Eric Helms

- translation missing: en.field\_release changed from 86 to 114
