### Description

Trying to create a new Hostgroup with the Foreman v0.4. Fresh install on a PostgreSQL DB server.

Everything is working fine except adding a new hostgroup. When I click the button to add one, I receive this error.

Here is a PasteBin of the debug output from the Webrick server.
----
http://pastebin.com/AQKAHTcq

Here is the error on the Foreman page.
----
undefined method `domain_id' for #<Hostgroup:0x7fddf416de68>

### History

#### #1 - 12/25/2011 08:10 AM - Ohad Levy

as I cant reproduce, can you confirm that your database is fully migrated?

if it is, does the following diff solves the problems? http://pastie.org/3070740

thanks
Ohad

#### #2 - 12/26/2011 07:43 AM - Ohad Levy

*- Target version deleted (0.4.1)*

I cant reproduce it, for now, removing it from the 0.4.x release

#### #3 - 01/29/2012 08:29 AM - Ohad Levy

*- Status changed from New to Resolved*
