

Foreman - Bug #13518

List of smart class parameters is undocumented

02/02/2016 06:46 AM - Ewoud Kohl van Wijngaarden

Status:	Rejected	
Priority:	Normal	
Assignee:		
Category:	API	
Target version:		
Difficulty:		Fixed in Releases:
Triaged:		Found in Releases: 1.10.1
Bugzilla link:		Red Hat JIRA:
Pull request:		
Description		
On http://theforeman.org/api/1.10/apidoc/v2.html I can't find documentation for /api/smart_class_parameters/.

Seems fine to me - it's 4/5 of the way down, between Settings and Smart proxies. Direct link:

http://theforeman.org/api/1.10/apidoc/v2/smart_class_parameters.html

#2 - 02/02/2016 08:01 AM - Ewoud Kohl van Wijngaarden

I think I'm just blind then and can close it as invalid. I was looking at http://theforeman.org/api/1.10/apidoc/v2/override_values.html so it may be useful to add a link there.
