Pull request:	
Description going to foreman/fact_values results in a "undefined method `length' for nil:NilClass". Runing foreman 1.10.1, ruby 1.9.1, via passenger. Using foreman chef plugin. Attaching error log.	

History

#1 - 02/05/2016 08:20 AM - Dominic Cleal

It's hard to tell if this is a bug in the Chef fact importer or Foreman core. The value of a fact is nil, so either one is being imported that's nil (and it shouldn't) or Foreman should handle nil values better.

You may want to check the fact_values DB table to see if you can find one with a NULL value, which might shed some light on whether it's valid or not.

There are loads of facts that have a null value.
Here is a small excerpt(screenshot) of some null facts.

What's the status here with current versions?

#4 - 06/02/2017 06:54 PM - Anonymous

- Status changed from New to Feedback

#5 - 06/05/2017 09:08 AM - Elias Abacioglu

Hmm, will have to wait a bit, currently turned off reporting of facts.
I will need to migrate our MariaDB cluster to physical nodes before I turn on reporting.

#6 - 10/01/2017 08:57 AM - Elias Abacioglu

- Status changed from Feedback to Closed

Appears to be workning now.
Thanks, closing this issue.
