

Foreman - Bug #13581

Clicking "Resolve" in Operating System -> Provisioning templates causes UI issues with drop-downs in the Interfaces tab

02/05/2016 11:00 AM - Cheng Zhou

Status: Resolved	
Priority: Normal	
Assignee:	
Category:	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: 1.10.1
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Foreman 1.10.1	
When creating a new host, if you click Resolve in the Operating System tab next to Provisioning templates, the drop-down fields in the Interfaces tab (when you edit an interface) appear at the top left corner of the screen (rather than next to the appropriate dropdown) and leaves the user unable to select anything from the dropdowns. (screenshots attached)	
Reproduced on Chrome and Firefox	
Steps to reproduce:	
1. Create New Host, fill out details in the Host tab (in this case, we used a VMWare deployment)	
2. Click on the Operating System Tab,	
3. Click "Resolve" next to provisioning templates at the bottom of the page	
4. Click on the Interfaces Tab and click "Edit" next to one of the interfaces	
5. Click the drop down for domain, subnet, NIC type, network. all of the dropdown lists appear at the top left corner of the screen and selections from this list have no effect.	
Note that PRIOR to clicking Resolve, the drop-downs appear and operate as expected.

- Status changed from New to Resolved

Thanks for the report. It looks like I've fixed this while working on another ticket ([#13980](#)) and tidying up how the dropdown menus are initialised on the New Host form. The fix for that is in 1.11.0-RC3 and will be in 1.10.3 (planned for this week).
