Pull request:	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1299017 When you go to build a server and you click the build button it does some kind of a check on the provisioning template. I would like to have a button that does the same basic check that you could click while you are in the process of editing the provisioning template. So you could find problems sooner.

History

#1 - 02/12/2016 03:08 AM - Dominic Cleal

- Is duplicate of Feature #11035: Allow all templates preview during their creation and editing added

#2 - 02/12/2016 03:08 AM - Dominic Cleal

- Status changed from New to Duplicate

There's already a preview button on the provisioning templates form.
