

## Foreman - Bug #13727

### Error not raised while setting default value when 'Override' set to False for parameter.

02/16/2016 06:06 AM - Jitendra Yejare

<b>Status:</b> Closed	
<b>Priority:</b> Normal

<b>Category:</b> Parameters	
<b>Target version:</b> 1.12.0	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1308860	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/foreman/foreman/pull/3204">https://github.com/foreman/foreman/pull/3204</a>	
<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1308860">https://bugzilla.redhat.com/show_bug.cgi?id=1308860</a>	
Description of problem: User is able to set the default value for parameter even if the 'override' flag is not set for the parameter, which is not expected. Note: This issue is only observed in CLI and not in UI.	
Version-Release number of selected component (if applicable): foreman-1.11.0-0.develop.201601251557git59dc77b.el6.noarch	
How reproducible: Always	
Steps to Reproduce: 1. Attempt to set default value for parameter which override flag is set to False.	
Actual results: Default Value successfully updated and no error raised.	
Expected results: 1. Error/Info should be raised to set the 'override' flag to True first. 2. Default Value should not be updated.
