Foreman - Bug #13769

SSH provisioning fails when sql logging level is set to 'error'

02/17/2016 11:29 AM - Ivan Necas

Status:	Closed		
Priority:	Normal

Category:	Orchestration		
Target version:	1.14.2		
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:	1325939	**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/4262		

Description

Current logger calls return `true`|`false` depending whether the current level
allows the logging message or not.

In the orchestration, we happened to have the logger call as the last
call of the orchestration method (
https://github.com/theforeman/foreman/blob/1.10.1/app/models/concerns/orchestration/ssh_provision.rb#L66).

When the method returns non-true value, it's considered as failure and the whole thing
tries to get rollbacked.
