Foreman - Bug #13770

SSH provisioning fails when no puppetca is assigned to the host

Description

We have the current code in the ssh provisioning:

https://github.com/theforeman/foreman/blob/1.10.1/app/models/concerns/orchestration/ssh_provision.rb#L66

When there is no puppetca, the puppetca? contidion leads to the method return nil,
which is considered as fail on the orchestration, leading to failure of the whole process.
