fixes #1387 - support puppet dynamic environments detection

Revision 0f2cfebb - 02/23/2012 02:45 AM - Ohad Levy

refs #1387 make sure that we won't fail if the modulepath detection is wrong

History

#1 - 12/09/2011 05:43 AM - Greg Sutcliffe

With regard to what?

#2 - 12/09/2011 07:20 AM - Florian Koch

with this you can use \$environment in the puppet conf for environments e.g

```
[master]
modulepath=/etc/puppet/$environment/modules
```

#3 - 12/09/2011 05:26 PM - Steve Traylen

There's possibly good background to the benefit here:

<http://puppetlabs.com/blog/git-workflow-and-puppet-environments/>

Its way of adding new environments with out having to reconfigure the puppet master at all, i expect this is what Florian may want to acheive?

#4 - 12/10/2011 04:41 AM - Florian Koch
