

Foreman - Bug #13937

Can't search host by domain parameters

Description

Searching a host by a parameter that is connected to its domain results in the following error:

```
PG::Error: ERROR: column hosts.domain_id does not exist LINE 1: ...WHERE "hosts"."type" IN ('Host:
:Managed') AND ((( hosts.doma... ^ : SELECT "hosts".* FROM "hosts" WHERE "hosts"."type" IN ('Host:
:Managed') AND ((( hosts.domain_id = 1 ))) ORDER BY "hosts"."name" ASC LIMIT 20 OFFSET 0
```

This is a result of trying to add a condition on hosts.domain_id:

<https://github.com/foreman/foreman/blob/develop/app/models/concerns/hostext/search.rb#L212>

domain_id is delegated to primary_interface but since search_by_params constructs a sql condition directly that doesn't help. The condition in search_by_params needs to add the join to get the domain_id.
