

Foreman - Refactor #13938

Remove reports fixtures

02/29/2016 03:35 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Dominic Cleal	
Category: Tests	
Target version: 1.12.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman/pull/3248	
Description	
<p>The fixtures for reports, logs and messages cause problems under Rails 4.2 as they are associated to fixture hosts which no longer exist (since #7733). Since their hosts were removed, the reports should also be removed and tests should use FactoryGirl instead.</p> <p>On 4.2, functional and integration tests for config reports fail when rendering links to report.host, which is always nil (and for normal use we have a presence check on host_id):</p> <pre>1) Error: ConfigReportsControllerTest#test_index: ActionView::Template::Error: undefined method `name' for nil:NilClass app/models/report.rb:56:in `to_label' app/helpers/application_helper.rb:31:in `link_to' app/helpers/application_helper.rb:176:in `display_link_if_authorized' app/helpers/application_helper.rb:166:in `display_delete_if_authorized' app/views/config_reports/_list.html.erb:35:in `block in _app_views_config_reports__list_html_e rb__4177766395673083355_151768240' app/views/config_reports/_list.html.erb:18:in `_app_views_config_reports__list_html_erb__4177 766395673083355_151768240' app/views/config_reports/index.html.erb:3:in `_app_views_config_reports_index_html_erb__419665 6909700471881_151739580' app/controllers/concerns/application_shared.rb:13:in `set_timezone' app/models/concerns/foreman/thread_session.rb:32:in `clear_thread' test/functional/config_reports_controller_test.rb:8:in `test_index'</pre>

fixes #13938 - remove reports fixtures

Under Rails 4.2, the rendering of the config_reports#show page was failing as the reports fixtures referenced hosts that didn't exist. Presence of host_id is validated under normal circumstances.
