Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/3249		

Description

The API v1 hosts views use the puppet_status attribute, which is a deprecated getter from [#10782](#), where only the v2 API was fixed to use the new version.

test/functional/api/v1/hosts_controller_test.rb prints:

```
DEPRECATION WARNING: You are using a deprecated behavior, it will be removed in version 1.13, Host
#puppet_status has been deprecated, you should use configuration_status. (called from
