

Foreman - Bug #1394

Clone Hosts broken

12/14/2011 01:56 PM - Florian Koch

Status: Closed	
Priority: Normal	
Assignee:	
Category:	
Target version: 1.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
In the latest dev branch the cloning of hosts are broken.	
i klick clone, modify name, ip and mac, click on submit, nothing happens, no error , but the host won't saved. nothing in the debug log	
in the parameter tab the link is not rendered correctly (see screenshot)	

History

#1 - 12/14/2011 02:08 PM - Florian Koch

without parameters defined i can clone the host

#2 - 12/14/2011 04:14 PM - Florian Koch

- *Target version set to 1.0*

#3 - 01/03/2012 03:21 PM - Florian Koch

- *Status changed from New to Closed*

- *% Done changed from 0 to 100*

hi,

with the latest git rev, the problem is fixed
