<b>Triaged:</b>	<b>Found in Releases:</b>
<b>Bugzilla link:</b> 1312725	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
On a system that has installed foreman-libvirt, the ruby-libvirt library throws constant warnings regarding being improperly built, linked or missing dependencies:	
<pre>Ignoring ruby-libvirt-0.5.2 because its extensions are not built. Try: gem pristine ruby-libvirt --version 0.5.2</pre>	
This causes some automation and results to fail as this unexpected warning pops up in the results.
