| <b>Description</b><br>I can choose it in the UI, but it does not 'stick'. |                           |

#### Associated revisions

##### Revision 7cec3f56 - 01/10/2012 03:38 PM - Ohad Levy

fixes #1399 - Hostgroups not attaching to Nodes

#### History

##### #1 - 12/15/2011 12:51 PM - W. Andrew Loe III

This is on the 'develop' branch.

##### #2 - 12/15/2011 01:40 PM - W. Andrew Loe III

This was a validation problem with puppetclasses in the host group not belonging to the node's environment. The validation didn't trip an error dialog, but does raise inside rails.

```
#<OrderedHash {:puppetclasses=>["base does not belong to the master environment", "media does not belong to the master environment", "primary-services does not belong to the master environment", "services does not belong to the master environment"]}>
```

Should probably amend this to just ensure we bubble this up.

##### #3 - 12/20/2011 06:49 AM - Ohad Levy

- Target version set to 1.0

##### #4 - 01/10/2012 03:40 PM - Ohad Levy

- Status changed from New to Closed

- % Done changed from 0 to 100

Applied in changeset [7cec3f5681e7178d2258b89c43f41a5cc31927dc](#).
