

Smart Proxy - Bug #14033

dhcp web interface error: undefined method `sort' for nil:NilClass

03/03/2016 01:06 AM - rui fernandes

Status: Duplicate	
Priority: Normal	
Assignee:	
Category:	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>After upgrading from foreman-proxy version 1.9.3-1 to 1.10 (I just tested on 1.10.2) I started seeing this error , when I go to: http://myserver.....net:8443/dhcp I see:</p> <pre>undefined method `sort' for nil:NilClass</pre> <p>Everything else works fine. Foreman can get new IPs. I just cannot connect to the web interface.</p> <p>If I rollback to the old version everything is OK, I just do:</p> <pre>yum erase foreman-release foreman-proxy yum clean all</pre> <p>install version 1.9</p> <pre>yum localinstall http://yum.theforeman.org/releases/1.9/el6/x86_64/foreman-release.rpm yum install foreman-proxy mv settings.yml.rpmsave settings.yml mv settings.d/dhcp.yml.rpmsave settings.d/dhcp.yml service foreman-proxy restart</pre> <p>and everything back to normal.</p> <p>Foreman-proxy settings:</p> <pre># cat settings.yml --- #replace default location of "settings.d" :settings_directory: /etc/foreman-proxy/settings.d :daemon: true :http_port: 8443 :daemon_pid: /var/run/foreman-proxy/foreman-proxy.pid :log_file: /var/log/foreman-proxy/proxy.log #:log_level: INFO :log_level: debug :virsh_network: default</pre> <p>here is the foreman-proxy log:</p> <pre>D, [2016-03-03T05:53:06.980944 #21215] DEBUG -- : accept: 10.50.20.55:60217</pre>	

```

Try adding "accept: application/json" header to your request, which will return json view of the data. Html views are broken in 1.10, and have been removed in 1.12.
