#### Associated revisions

##### Revision f0091ac8 - 05/06/2016 10:29 AM - Dominic Cleal

fixes #14133 - update to rubocop 0.39.0

Replaces hirb-unicode with the maintained hirb-unicode-steakknife fork, due to conflicting requirements on unicode-display\_width with the older hirb-unicode and new rubocop.

Rake is unpinned due to the newer rubocop's compatibility with it, and parser unpinned as the newer rubocop+parser combination works. Custom rake test tasks have warnings disabled to match Rails behaviour and prevent lots of output.

##### Revision 609d3bb8 - 05/09/2016 03:45 AM - Dominic Cleal

refs #14133 - use hirb-unicode-steakknife

#### History

##### #1 - 03/10/2016 03:24 AM - Dominic Cleal

A little more complicated, as hirb-unicode (from the console group) has a conflicting dependency with rubocop on unicode-display\_width. I've submitted <https://github.com/steakknife/hirb-unicode/pull/1> to fix a maintained fork of hirb-unicode (itself now dead) and perhaps it can be switched over, else remove hirb-unicode entirely.
