Description

As with Foreman in [#14114](#), rake 11.x causes the following error with rubocop pre-0.38.0:

```
NoMethodError: undefined method `last_comment' for #<Rake::Application:0x000000019f30c0>

```

On Ruby 1.8.7, rake 11.x also can't be installed as it's now 1.9.3+ only:

```
Installing rake 11.0.1
Gem::InstallError: rake requires Ruby version >= 1.9.3.
```
