<b>Description</b>		
I need to know what the proxy does and currently foreman does not return the feature attribute via json.		

#### Associated revisions

##### Revision d076d573 - 11/21/2012 08:10 AM - Joseph Magen

This commit adds most of the functionality required for API v1

The overall goal was to extract the existing JSON response overall controllers, and to move them to a seperate name space.

- documentation was added to all requests (available under /apidoc) this include same request and response generated using APIPIE\_RECORD=examples rake test:api
- Also Fixes #1800, fixes #1419, fixes #981 and fixes #1774

whats missing:

1. Permissions checks for all new controllers
2. Nested routes (e.g. /hosts/id/reports)
3. running tests with oauth/basic\_auth (instead of as\_admin {get /})

#### History

##### #1 - 11/15/2012 08:07 AM - Joseph Magen

- Status changed from New to Ready For Testing
- Assignee set to Joseph Magen
- Target version set to Bug scrub
