<b>Description</b>	
Cloned from <a href="https://bugzilla.redhat.com/show_bug.cgi?id=1318325">https://bugzilla.redhat.com/show_bug.cgi?id=1318325</a>	
Description of problem: auth_source_ldaps have 'server_type' attribute, value of which is not returned by any of POST/GET/PUT request in sat6.2.	
Version-Release number of selected component (if applicable): Satellite 6.2.0 Compose 3	
How reproducible: 100%	
Steps to Reproduce: 1. Issue HTTP POST request to <a href="https://sat.example.com/api/v2/auth_source_ldaps">https://sat.example.com/api/v2/auth_source_ldaps</a> with 'server_type' attribute set to some value (e.g. 'active_directory'). 2. Capture the response. Examine the JSON payload and discover that the "server_type" attribute is not mentioned. 3. Issue HTTP GET and HTTP PUT requests to previously created auth_source_ldap. Check the "server_type" attribute presence.	
Actual results: 'server_type' attribute is absent in GET/POST/PUT responses.	
Expected results: 'server_type' attribute is present and has correct value.
