<b>Description</b>	
In keeping with this new feature in facter 1.6.4: <a href="http://projects.puppetlabs.com/issues/10444">http://projects.puppetlabs.com/issues/10444</a>	
It would be very useful to combine these new values in the absence of hardware model, then display information from the motherboard.	
Eg: "boardmanufacturer + boardproductname"	

#### Associated revisions

##### Revision 011049c6 - 12/18/2013 09:53 AM - Michael Moll

fixes #1431 - use boardproductname as model fallback if productname or model fact don't exist
