Category: Search	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1321871	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1321871	
Description of problem: Searching an entity with single quote (e.g : override = 'true') gives no results or throws error : Oops, we're sorry but something went wrong 'override' should be one of 'true, false', but the query was "true"	
Version-Release number of selected component (if applicable): Sat 6.2 snap 5.1	
How reproducible: Always	
Steps to Reproduce: 1. Navigate to any component to scope search the entity. 2. In scope search bar, attempt to search entity such as key = 'value', where value is in single quote.	
Actual results: No results or error is thrown mentioned in description above.	
Expected results: Scoped search with single quotes should work and should give proper results.

- Category set to Search
- Tracker changed from Bug to Feature

Quoting is specified in the search documentation as being with double quotes, this is expected behaviour. Single quotes are parsed as part of the the value currently. You should file this in scoped_search, it's not really Foreman.
