An easy test for this would be to install foreman_discovery and then do a search. The search should filter the list of discovered hosts on the foreman_discovery widget.

#3 - 03/31/2016 01:08 PM - David Davis

- Subject changed from Allow widgets to plug into the search box to Allow plugin widgets to hook into the search box

#4 - 03/31/2016 06:36 PM - David Davis

- Subject changed from Allow plugin widgets to hook into the search box to Allow plugin widgets to hook into the dashboard search box

#5 - 12/13/2016 04:26 AM - Tomer Brisker

- Status changed from New to Duplicate

The search parameters are now passed on to the widgets. They are also available for widgets on the `@data` instance variable as `@data.filter`. Filtered and authorized hosts are also available as `@data.hosts`.

#6 - 12/13/2016 05:06 AM - Tomer Brisker

- Is duplicate of Bug #16702: dashboard widgets ignore filters added
