<b>Description</b>	
<p>I am able to provision and pxeboot an instance. I am having issue where the classes are not being deployed. I have setup "host groups" and assigned module to it. It even show up when I click on the YAML icon.</p> <p>The error that I see are as follows.</p> <p>Could not evaluate: Error 400 on SERVER: Not authorized to call find on /file_metadata/facts Could not retrieve file metadata for puppet://"my new puppet host"/facts: Error 400 on SERVER: Not authorized to call find on /file_metadata/facts</p> <p>Failed to generate additional resources using 'eval_generate': Error 400 on SERVER: Not authorized to call search on /file_metadata/facts with {:ignore=&gt;[".svn", "CVS"], :recurse=&gt;true, :links=&gt;"manage", :checksum_type=&gt;"md5"}</p> <p>could someone help me on this?</p> <p>Thanks, Thomas</p>
