

Foreman - Bug #1450

Formatting in Hint-Text wrong

01/17/2012 06:39 AM - David M.

Status: Closed	
Priority: Low	
Assignee: Ohad Levy	
Category: Web Interface	
Target version: 1.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>On the "New Medium" page, the hint-text below the input boxes look like this:</p> <pre>The path to the medium, can be a URL or a valid NFS server (exclusive of the architecture). for example http://mirror.averse.net/centos/\$version/os/\$arch where \$arch > will be substituted for the host's actual OS architecture and \$version, \$major and \$minor will be substituted for the version of the ope rating system. Solaris and Debian media may also use \$release.</pre> <p>So the STRONG-Tag is not parsed correctly. Also an example for a NFS-Server entry would be helpful</p>	

History

#1 - 01/17/2012 07:07 AM - Ohad Levy

- Target version set to 1.0

#2 - 01/29/2012 08:56 AM - Ohad Levy

- Status changed from New to Closed

that was fixed already at [f40d58aa77](#)
