Foreman - Bug #14511

Current bookmark query is not populated when editing a bookmark

04/06/2016 02:49 PM - Brad Buckingham

Status:	Closed

Bugzilla link:	1324484	**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/3401		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1324484
Description of problem:
When editing an existing bookmark, 'Search query' textarea is empty by default and not set to actual query. This is problematic as user is forced to retype a query each time he wants to edit a bookmark (e.g. when updating its 'public' status or name), otherwise bookmark won't be saved as 'Search query' is required field.

Version-Release number of selected component (if applicable):
Sat6.2 Beta Snap6

How reproducible:
Always

Steps to Reproduce:
1. Navigate to Administer -> Bookmarks
2. Open any existing bookmark
3. Check 'Search query' textarea value

Actual results:
'Search query' is empty, making user re-type it each time he wants to update a bookmark.

Expected results:
'Search query' should be set to current bookmark's query.
