Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	

Description

Currently the puppetca smart proxy does not show extra attributes of the CA request that can optionally be embedded to increase security.

- See https://docs.puppet.com/puppet/3.8/reference/config_file_csr_attributes.html
- See https://docs.puppet.com/puppet/latest/reference/config_file_csr_attributes.html

```
# /etc/puppet/csr_attributes.yaml
---
```

```
custom_attributes:
  1.2.840.113549.1.9.7: SECRET
extension_requests:
  pp_uuid: ED803750-E3C7-44F5-BB08-41A04433FE2E
  pp_image_name: my_ami_image
  pp_preshared_key: SECRET
```

```
openssl req -in /var/lib/puppet/ssl_master/ca/requests/webserver-test1.xx.xx.xx.pem -text
Certificate Request:
```

```
Data:
  Version: 0 (0x0)
  Subject: CN=webserver-test1.xx.xx.xx.xx
  ...
  Attributes:
    Requested Extensions:
      1.3.6.1.4.1.34380.1.1.2:
        i-12345678
      1.3.6.1.4.1.34380.1.1.4:
        342thbjkt82094y0uthhor289jnqthpc2290
```

Providing the information can increase security
