After some troubleshooting this issue was caused because foreman-proxy was unable to delete the dns records for this host, which received the following error:

```

```

So not a foreman issue, but a more descriptive error message would be great.

#### History

##### #1 - 04/19/2016 04:48 AM - Marek Hulán

- Subject changed from *ActiveRecord::RecordNotDestroyed error due to dns update issue when trying to delete a host* to *Improve error messages when deleting multiple host fails because of proxy errors*
- Category set to *Orchestration*

##### #2 - 04/21/2016 09:17 AM - Dominic Cleal

- Priority changed from *Low* to *Normal*
- translation missing: *en.field\_release* set to *155*

I think this is a change in behaviour, since in 1.10 (with Rails 3.2) the error would be caught and would bubble up to the UI as a flash.
