Updated at: 2016/02/24 18:42:11	
Version-Release number of selected component (if applicable):	

Satellite 6.1

How reproducible:

Always

Actual results:

Authorized by field is blank

Expected results:

It should show correct authentication source : Internal or LDAP-name

- Status changed from New to Assigned

I'm not clear on what the bug here is, are you reporting a bug against the authorised/auth source field in the info command or an issue with updating auth sources?

(Changing to assigned if you're working on something.)
