

Foreman - Bug #1471

Shouldn't have the option to specify the "Puppet Master Proxy" when not using foreman for host provisioning.

Description		
<p>Hello, I've chosen not to use foreman for hosts provisioning and yet when I edit the Host Group options I'm able to specify the "Puppet Master Proxy". It seems like this option shouldn't be available when the ":unattended:" line was changed to false in the foreman's config file. Thanks.</p>
