Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/smart-proxy/pull/510	
Description	
<p>When adding additional DNS names to the Puppet certificates, the signing needs extra parameters.</p> <p>Foreman smart proxy should support "--allow-dns-alt-names" as an option in foreman.yaml.</p> <p>Puppet config:</p> <pre>[agent] dns_alt_names = webhook.server.example.com [root@SERVER]# puppet cert sign "server.example.com" Error: CSR 'server.example.com' contains subject alternative names (DNS:server.example.com, DNS:webhook.server.example.com), which are disallowed. Use `puppet cert --allow-dns-alt-names sign server.example.com` to sign this request. [root@SERVER]# puppet cert sign --allow-dns-alt-names "server.example.com" Notice: Signed certificate request for server.example.com Notice: Removing file Puppet::SSL::CertificateRequest server.example.com at '/var/lib/puppet/ssl_master/ca/requests/server.example.com.pem'</pre> <p>It seems puppet-proxy modules/puppetca/puppetca_main.rb does not add this option.</p> <p>Release:</p> <pre>[root@puppet foreman-proxy]# rpm -qa grep foreman-proxy foreman-proxy-1.11.1-1.el7.noarch</pre>	

History

#1 - 04/29/2016 08:16 AM - Dominic Cleal

- Project changed from Foreman to Smart Proxy
- Subject changed from Smart Proxy should support --allow-dns-alt-names to Puppet CA signing should support --allow-dns-alt-names
- Category changed from Smart Proxy to Puppet

#2 - 02/13/2017 11:44 AM - The Foreman Bot

- Status changed from New to Ready For Testing
- Pull request <https://github.com/foreman/smart-proxy/pull/510> added

#3 - 11/30/2017 09:39 AM - Tomer Brisker

- Category changed from Puppet to PuppetCA

#4 - 01/29/2019 02:53 PM - Lukas Zapletal

- Tracker changed from Bug to Feature

- Status changed from Ready For Testing to New
- Difficulty deleted (easy)
- Triaged changed from No to Yes

Thanks for the patch so far, this needs to be a configurable option, possibly with a list of hostnames as folks suggest. Please rebase, add config option, tests and reopen or file a new PR if you want this functionality.
