Foreman - Bug #14886

Clicking a link or visiting a url while logged out does not properly redirect to original destination

04/29/2016 10:38 AM - Zach Huntington-Meath

Status:	Duplicate		
Priority:	Normal		
Assignee:	Zach Huntington-Meath

Target version:			
Difficulty:		**Fixed in Releases:**	
Triaged:		**Found in Releases:**	
Bugzilla link:	1321007	**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/3479		

Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1321007
Description of problem:

For some reason the login redirect isn't working properly. It always dumps the user to the hosts page.

Version-Release number of selected component (if applicable):
6.2 Snap4

How reproducible:
Always

Steps to Reproduce:
1. Log out
2. Go to some url such as https://hostname/content_hosts
3. Login

Actual results:
You get redirected to /hosts

Expected results:
redirects you to where you were trying to go

Additional info:
No idea if this has anything to do with katello being present or not, it seemed to start as part of the upgrade to rails 4

This is super annoying
