

Katello - Bug #14990

Subscription manager is red even though content host is unregistered

05/10/2016 02:25 PM - John Mitsch

Description http://www.clipular.com/c/6578721027260416.png?k=dO_kmqROKmOFCo9SrosDOwndq8w When a content host is unregistered, the subscription status is still red. This is confusing as the global status is green. One potential solution would be not to show the subscription status if its unregistered.	

History
