

Katello - Bug #15052

capsule-certs-generate misses key information

05/14/2016 09:00 AM - Alex Shearn

Status: Resolved	
Priority: Low	
Assignee: Chris Roberts	
Category: Documentation	
Target version: Katello Backlog	
Difficulty: trivial	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>The example output from `capsule-certs-generate` and also in the documentation (http://www.katello.org/docs/2.1/user_guide/capsules/) (under "Installing") misses out some very important information related to DHCP and DNS, specifically `--dhcp-gateway` and `--dns-reverse`. These default to a 192.168.100.0/24 IP/zone, which could very well break the install (as it did for me).</p> <p>The same problem exists on the RedHat documentation page (I'm not sure if you guys own that or not): https://access.redhat.com/documentation/en-US/Red_Hat_Satellite/6.0/html/User_Guide/Configuring_a_Red_Hat_Satellite_Capsule.html, number 2 part b.</p> <p>Specifically, the `--dns-zone` option is specified but not the reverse!</p> <p>This may not be a bug, but the documentation could do with a review and I'm not sure where to post it.</p> <p>I'm using the following versions:</p> <pre>[root@capsule-core-1 etc]# rpm -qa grep katello katello-debug-2.2.0.14-1.el7sat.noarch katello-default-ca-1.0-1.noarch katello-installer-base-2.3.17-1.el7sat.noarch katello-agent-2.2.5-1.el7sat.noarch katello-service-2.2.0.14-1.el7sat.noarch katello-certs-tools-2.2.1-1.el7sat.noarch katello-server-ca-1.0-1.noarch pulp-katello-0.5-1.el7sat.noarch katello-ca-consumer-satellite.intranet.net-1.0-1.noarch</pre>

- Status changed from New to Assigned
- Assignee set to Chris Roberts

Hi Alex,

Thanks for the ticket. I will submit the changes to get this fixed on the katello website. As far as the Red Hat bug, are you able to open a docs bug and I can make sure it gets in the right hands.

#2 - 05/24/2016 08:56 PM - Eric Helms

- translation missing: en.field_release set to 143

#3 - 07/08/2016 11:16 AM - Justin Sherrill

- translation missing: en.field_release changed from 143 to 114

#4 - 07/02/2018 08:57 PM - Chris Roberts

- Status changed from Assigned to Resolved
